

Please do not expand LPFM. There is a station that has such a positive influence to our area, K-LOVE. It's hard to get and I can only get it in the car and the computer, but it's making a difference in lives. It would be devastating to K-LOVE if it were to be displaced. A trucker friend that hauls at night really appreciates the fact that he can get K-LOVE in Albuquerque and then continue to get it in different cities he makes runs to.

Please don't clutter the airways up with more local junk.

Thank you

Carol and Greg Shirley

Albuquerque, NM
